High School Diploma	Weighted GPA: 4.86

SKILLS

Java, Python, MATLAB, NI Multisim, Autodesk Fusion 360 CAD, Onshape CAD, Microsoft Products

WORK EXPERIENCE

Johns Hopkins Applied Physics Laboratory (APL) | Laurel, MD

ASPIRE High School Academic Year Intern	Oct 2023 – May 2024
- Developed 121 detailed lunar surface images in MATLAB, incorporating over 540 precise annotations of lunar craters for use in model training and analysis - Trained the YOLOv8 machine learning model using Python to accurately detect lunar craters using rendered images - Co-authored an unpublished paper titled "Deep-Learning Crater Detection and Segmentation for Autonomous Navigation," creating a dataset for training machine learning models to perform lunar crater detection	
ASPIRE High School Summer Intern	July 2023 – Aug 2023
- Collaborated with two colleagues to optimize camera parameters for NASA's Dragonfly prototype using MATLAB and Python, resulting in enhanced prototype performance - Presented key findings to Dragonfly's navigation team, influencing design decisions for Dragonfly's navigation system
