

Sexual Assault Policy/Training

Ideal Innovations, Inc. Sexual Assault¹ Prevention and Response (SAPR) policy/training is designed to meet the needs of employees who may become a sexual assault victim and to create a company climate that eliminates sexual assault incidents and encourages victims or witnesses to report incidents without fear of retaliation, reprisal, ostracism, coercion, or maltreatment. This will be achieved through training, employee intervention, quick and thorough response, accountability, and coordination with law enforcement.

¹**Sexual assault** is defined as intentional sexual contact characterized by use of force, threats, intimidation, or abuse of authority or when the victim does not and cannot consent². The term includes a broad category of sexual offenses consisting of the following specific offenses: rape, sexual assault, aggravated sexual contact, abusive sexual conduct, forcible sodomy (forced oral or anal sex), or attempts to commit these acts.

²**Consent** is defined as a freely given agreement to the conduct at issue by a competent person.

Examples:

- An expression of lack of consent through words or conduct means there is not consent.
- Lack of verbal or physical resistance or submission resulting from the use of force, threat of force, or placing another person in fear does not constitute consent.
- A current or previous dating or social or sexual relationship by itself or the manner of dress of the person involved with the accused in the conduct at issue shall not constitute consent.
- A sleeping, unconscious, or incompetent person cannot consent.

Ideal Innovations commitment is to prevent all forms of sexual assault. Ideal Innovations will not tolerate, condone, or overlook sexual assault, or any behaviors that lead to incidents of sexual assault. Ideal Innovations goal is to ensure comprehensive treatment (emergency care, medical and mental health services) is provided to restore any sexual assault victim's health and mental well-being; and ensure appropriate administrative, disciplinary, and legal action is taken, when deemed necessary.

No form of sexual assault is ever acceptable, and all are crimes. It is the responsibility of all employees to protect each other and to actively intervene and report any incidents of sexual assault or any behavior that may lead to sexual assault as soon as he or she

becomes aware of an incident or has first-hand knowledge of an incident. Any employee who engages in any form of sexual assault will be held accountable to the highest legal degree necessary.

If you have been, or think you may have been sexually assaulted, there are several steps you can take to remain safe, conserve evidence and get support:

- Call 911 Immediately
- Go to a safe location away from the perpetrator
- Conserve all evidence of the assault, if possible
- Do not bathe, wash your hands, or brush your teeth
- Do not eat or drink (eating and drinking may compromise evidence collection during a Sexual Assault Forensic Exam [SAFE])
- If you are still in the location in which the assault occurred, do not clean, tidy up or remove anything from the crime scene
- If you change clothes, place them in a paper bag
- Seek medical care as soon as possible
- Document all details you can recall about the assault and the perpetrator
- Report the incident directly to your chain of command AND Human Resources: HR@idealinnovations.com

I'm a Supervisor/Manager/Program Manager and someone I supervise has been Sexually Assaulted:

If the victim reports directly to you:

- Ensure the victim/employee is at a safe location away from the perpetrator. If not, take him or her to a safe place.
- Work with law enforcement to protect the victim/employee from the perpetrator and others acting on the perpetrator's behalf. If the victim's safety is still threatened, contact civilian law enforcement as soon as possible.
- Encourage the victim to seek medical care. If emergency medical care is required, call 911. If the victim requires less than emergency care, help him or her get to a medical provider as soon as possible.
- Other than safety and health-related questions, try to refrain from asking the victim for details about the incident. Ask what you can do to help him or her.
- Contact the Sexual Assault Response Coordinator (SARC) and arrange for the victim to speak with a SAPR Victim Advocate (SAPR VA). Call the DoD [Safe Helpline](https://www.dodig.mil/secure/saprhelpline) (1-877-995-5247).

Follow up with your chain of command and Human Resources:

HR@idealinnovations.com to ensure they are aware of the incident.

Do not discuss the matter casually with coworkers or subordinates. It is critical to protect the privacy of a sexual assault victim.

Supervisor/Manager/Program Manager follow-up after the incident:

- Ensure the victim is allowed time to attend necessary appointments.
- Assist with administrative and logistical arrangements so that the victim can access support services and receive care.
- Support the victim as he or she goes through the investigation and legal proceedings.
- Be available to listen and be patient with the person's work performance as they recover from being the victim of a crime.

Employee Responsibility:

It is the responsibility of all employees to protect each other and to actively intervene and report any incidents of sexual assault or any behavior that may lead to sexual assault as soon as he or she becomes aware of an incident or has first-hand knowledge of an incident.

"If you see something, hear something, learn of or know something about an incident of sexual assault – Say something and Do something"

Ideal Innovations, Inc. encourages its employees to engage in **active bystander intervention** to help prevent sexual assault.

Active Bystander Intervention means to take the initiative to help someone who may be targeted for asexual assault by a perpetrator.

Forms of prevention to be taken by Active Bystanders should include:

- Talking to a potential victim to ensure he or she is doing okay
- Making up reasons to help the potential victim get away from someone suspicious
- Calling Law Enforcement
- Removing a potential victim from a risky situation quickly

False Reporting:

Filing false and malicious sexual assault allegations is an abuse of this policy; is prohibited and will not be tolerated. If, after investigation, Ideal Innovations Inc. determines that an employee intentionally provided false information regarding a sexual assault allegation, disciplinary action up to and including termination may be taken against the one who gave the false information.

Retaliation, Reprisal, Ostracism, Coercion, or Maltreatment prohibited:

Ideal Innovations Inc. prohibits any form of retaliation, reprisal, ostracism, coercion or maltreatment against any employee/victim or witness for reporting a sexual assault allegation or incident under this policy or for assisting in a sexual assault investigation.
